Thirteen charter members were enrolled; but the roll will be kept open for a week for further membership.

A BONDED warehouse has been instituted at Edmonton, under the supervision of the inland revenue office. This allows dealers in wines, liquors, tobacco and other dutiable goods under the excise act, to have them sent in bond direct to Edmonton, where the duty is collected and forwarded to the department. Heretofore the duty has been collected at Hamiltou, Toronto and points east, and wholesale firms here have been obliged to pay the duty to wholesale firms in the east before the goods were shipped. The first car of bonded merchandise to arrive at Edmonton came in on last train.

A SUBSTANTIAL bridge has been completed across the Black Mud creek between sections 20 and 29, township 51, range 24, on Northwest government account. This bridge is to allow the output of the White Star coal mines to reach the railway in the shortest possible distance. A switch is being put in on section 29 by H. Horton, lessee of the mines, to facilitate the shipment of coal to Calgary. The railroad track at this point is quite close to the Calgary trail. The construction of this bridge and switch will save a haul of over two miles, or over four miles on the round trip, as compared with the trip to Otaskawan siding. Archie Cameron was the bridge contractor and McLagan Bros. the contractors for the grades approaching the bridge.

DR. TOFIELD has removed to Beaver Lake and will practice there.

GENERAL NEWS.

Gladstone has absolutely retired from political life.

The Mahdi has proclaimed a holy war against the Italians.

A recent shipment of cattle to Toronto market from the Northwest brought 2½c live weight.

Percy Neale, the absconding collector of customs at MacLeod has been brought to Regina for trial.

Arthur Davey who was arrested at Regina for having eloped with a Miss Oldrieve has been released.

F. J. Boswell's stable and contents, Calgary, was totally destroyed by fire on Wednesday morning last.

City engineer Ruttan of Winnipeg, has been ordered to give security for costs in the libel suit against the Tribune.

The Midland Pacific railroad from Sioux Falls, S. D., to Seattle and Tacoma, is the latest probability in railway circles.

Mrs. Hartley, the alleged murderess of Brantford, has been acquitted, and much indignation is expressed at the decision.

J. R. Neff of Moosomin, has instruced his solicitors to enter action against N. F. Davin of the Regina Leader for $5000 damages for alleged libel.

The Medicine Hat News says the output of one of the gold mining camps consisting of five or six men, has amounted to about $2600 or about $400 per man.

The exchequer court has decided that the Toronto street railway company must pay the duty of six dollars a ton on steel rails. Steel rails are only free for steam railways.

A treaty has been concluded between England and Japan in which English subjects in Japan will enjoy the same freedom, the same protection and the same immunity from interference as Japanese subjects now have in Great Britain.

Hon. Justice Scott was sworn in as one of Her Majesty's Justices of the Supreme Court on Monday last before Lt.-Gov. Mackintosh. Judge Scott's commission assignes to him in conjunction with Judge Roulean the judicial districts of Northern and Southern Alberta with official residence at Calgary. The judge left this morning to enter upon his new duties.—Regina Standard.

The steamer North West, since the close of navigation, has been hauled out on the bank at her moorings at the East End. A thorough overhauling of her hull and machinery is taking place under the supervision of the steamer's master, Capt Dugal. The repairs are extensive and will cost over $1,000; but when completed will make the North West a speedy, safe and commodious steamer, specially fitted for the trade in which she is engaged. — Prince Albert Advocate.

The three railway companies, the Canadian Pacific, Great Northern and Northern Pacific announce their rates for the annual winter excursions to the east. The C. P. R. will commence selling these tickets, good for three months, on Nov. 20th, and they will be available till Dec. 31st. In past years this company has only run their tourist cars on arranged dates, but this season these cars will be attached to the daily express and the service extended over the branch lines.

An Ontario visitor to the Northwest writes in a private letter: "I have discovered one thing in the west, and that is that the row in Ontario and Quebec about racial and religious questions out here is pretty much confined to those provinces. In the Territories we have not heard a word about dual language or the separate schools and in Manitoba the agitation appears to be dying out. The people seem to be too busy making a living to bother with such things.—Galt Reformer.

Quebec, Oct. 29th.—A distinguished party of American and English miners and capitalists are at present upon a tour of the principal mining districts in this province. Prominent members of the party are L. Baumgarten, Washington, H. Baumgarten and W. Spencer, of London, England. The Baumgartens are the largest operators in mica in Europe and America and have just succeeded, between purchase and bonding, in obtaining control of all the best known mica proprieties in this part of Canada. The prices to be paid, and that have been paid, have not transpired, but are understood to be very high. Speculators declare that beyond any doubt Canada has the finest white mica in the world.

Minneapolis; Oct. 29.— The entire party of delegates to Ottawa are here to-day well satisfied with the result of the trip. They say the success, of the Hudson's Bay railway is assured, and aid sufficient to build the road is guaranteed. They will not state the exact amount asked or promised by the Government, but stated most positively that $20,000,000 required to construct the line has been forthcoming. The work of getting out the ties and making active preparations for construction in the spring will be made at once. Gangs of men will be dispatched to the woods this winter for the purpose. All the delegation are most sanguine and more than satisfied. They will reach Winnipeg to morrow on the N. P. R.

The trade figures for the month of September are as follows: The total of dutiable goods entered for consumption was $5,296,773 while in the same month of last year the same class of imports amounted to $6,665,576 or $1,369,503 more. The principal reductions seem to be in coal, silks and iron. Canadian goods exported during September of the present year amounted to $10,915,951, a slight increase as compared with September, 1893, when such exports were $10,174,286. There is, however, a big falling off of exports the produce of other countries. The exports of the produce of other countries amounted in September of the present year to $1,000,504, and September, 1893, to $1,966,098. This partially accounts for the declining receipts of the railways.

Washington, Oct. 26th.—In an order to postmasters to-day, the postmaster general amended the postal laws and regulations in regard to mails intended for Canada. The order says: Articles of mail matter for Canada are classified and admitted to the mails at the same rate of postage and in all respects according to the domestic regulations of the United States, and certain mails from Canada will be received and delivered as domestic mails. Prepayment of postage is in all cases obligatory. "Commercial paper," and "samples of merchandise" are exchanged by mail between the United States and Canada at the postage rate and under the conditions applicable to similar articles in the mails exchanged between this country and countries of the universal postal union generally. Sealed packages other than letters in the usual and ordinary form are not allowed to be dispatched to Canada, even if postage is prepaid thereon in full at letter rate. Should any article be tendered for mailing at a post office in the United States, obviously with the intent to evade the higer postage rate applicable to it in Canada, it must be refused unless payment be made of such higher rate. Postmasters on the Canadian border and all offices near that country are especially enjoined to carefully observe this provision.

Sioux Falls, S. D., Oct. 30.—W. J. Wagner, travelling agent for the Great Northern road, has returned from a trip through the northern part of the state which was severely stricken with the drought. He reported the people there in destitute circumstances. Near Osceola and west of it whole townships were left by the sun and wind as dry and barren as a desert and stock was rendered worthless as there is no feed. One family was found eating horseflesh.

ASSEMBLY ELECTIONS.

The result of the elections to the Northwest assembly so far as known indicate the re-election of seventeen out of the twenty-six members of the late assembly, five of which were by acclamation, and the defeat of five. Three did not offer for re election, namely McKay of Prince Albert, Cayley of Calgary and Clementson of Whitewood. The issues involved in the elections seem to have been personal and local rather than general and therefore they cannot be claimed as a great victory, moral or otherwise for any one except the members elected; unless indeed the fact that the present method of carrying on the government of the Territories was never brought in question may be taken as evidence of the general satisfaction with that method of government. As compared with any of the provincial governments, it is economical and efficient. It uses up a less proportion of the total revenue in carrying on the government,—in running the machine—and hands over directly to the people in the shape of aid to schools and public works a larger proportion of the total income than does any provincial government. No doubt the people are satisfied with this condition of affairs or they would have taken the opportuniny afforded on Wednesday last of saying so. One of the candidates in East Calgary declared in favor of the separation of Alberta from the rest of the Territories which would naturally increase the cost of government, and he was placed at the foot of the poll in a field of five.

Of the members of the late assembly who are at this date supposed to be defeated, Mr. Tweed of Medicine Hat was a member of the executive committee, the only one of the four who was defeated. Mr. Tweed was a popular and useful member and owes his defeat to a red hot local feud which has been in existence at the Hat for some months rather than to any loss of personal popularity or to any fault that could be found with his public acts.

In the defeat of Mr. Davidson of South Qu'Appelle, if he is defeated, it is likely that the temperance question played some part, as he has been replaced by Mr. Bulyea a strong temperance man, who opposed him at the previous election.

Mr. Jelly of North Regina, a farmer in an almost entirely farming constituency has been replaced by Mr. Brown, a lawyer of Regina. But as Mr. Brown is also a practical and successful farmer in North Regina district, where he was one of the early settlers, the change is not so great as would at first appear. The vote turned on the merits of the men rather than on other questions.

In Red Deer Mr. Wilkins has been defeated by what looks very much like treachery on the part of his own townsmen. He was the means of securing the construction of a most useful and necessary traffic bridge across the river at Red Deer. This of course meant that for the time other parts of the district did not receive their usual share of the public money. It was not unnatural that those who felt themselves slighted should vote against the member who slighted them, but it was altogether unnatural that those who had received the benefit should be the first to oppose him and to oppose him most strongly. It would be poetic justice indeed if in the effort to defeat Wilkins by another Red Deer man a representative from Innisfail should be elected.

In St. Albert Mr. Prince was defeated chiefly on the grounds that he was a professional man and a non-resident. This was a strong cry in a purely farming constituency. At one stage of the contest, the French Canadian farmers of Morinville settlement attempted to get Mr. Prince to retire in favor of a local man selected from amongst them. This he declined to do, and in consequence a large number of them voted against him. Mr. Maloney the successful candidate is a farmer of the district and was the nominee of the patrons of industry.

IRRIGATION IN THE SOUTH.

F. Pattillo returned from the south on Thursday's train after spending the summer as a member of the irrigation survey party conducted by S. J. Dennis. The party worked from Red Deer south to Mosquito creek and from the Mountains eastward, taking note of the volume of water in the streams, the lie of the country and the possibility of conducting the water to irrigate the land. The work done will be mapped out and serve as absolutely reliable information upon which to base future irrigation schemes. Another party was at work from Mosquito creek south to the boundary line. The survey will be continued next year in the country to the eastward of where the work was done this summer. The information collected this season shows that irrigation is practicable to a very large extent in the southern country, and also that it is necessary in the very highest degree. Owing to drouth many homesteads with valuable improvements are deserted, showing a great loss of time and money, besides the discouragement incident to failure on the part of the unsuccessfull homesteaders. With irrigation not only would these homesteads be re-occupied but thousands more.

SOUTH EDMONTON.

Notices of the proposed establishment of a Roman Catholic separate school in South Edmonton have been posted. The name of the district will be St. Anthony de Padoue.

The roof is being put on the new public school building. The building with its tower has a most imposing appearance.

Large quantities of wheat are coming in to the mill. The price paid is 40c to 48c. The quality of the grain is much better than last year in every way. There is less smut and less dampness. There is very little pure red fife however.

The plant for the South Edmonton News is in place in H. Wilson's building adjoining Jackson Bro's machine shop. The first number did not appear on November 1st as announced, but it will appear shortly.

The woodwork of Ross & Fergusson's new hardware store is being completed and the building will soon be ready for occupation.

W. Brunelle of Sandy Lake settlement has leased the Commercial hotel from T. Mallette and has entered into occupation. Mr. Mallette has gone to his farm on the Indian reserve.

The Raymond Hotel is being re-opened by W. H. Sheppard late of MacLeod.

The street south of and parallel to Whyte avenue East has been graded.

The cultivation of hops has been suggested as a profitable crop in Manitoba. Certain it is that wild hops grow luxuriously in Manitoba and produce abundant crops. If the presence of native varieties are good indications of the adaptability of a country to similar varieties of cultivated crops, there should be no question about growing hops in Manitoba. —Commercial.

Toronto, Oct. 27.—Both local and through freight rates on lumber have been advanced on the Grand Trunk railway. What little benefit there was in free admission into the United States of Canadian lumber is now offset by the unusual advance in transportation rates. Dealers are greatly incensed at the action on the part of the railway.

The printers of the west should arrive at an understanding regarding the spelling of the word "Northwest"—whether the hyphen should be used or not. The tendency in modern days is to make compound words into one word. Northwest is more compact and neater in appearance than North-West or North-west and ought generally to be adopted. The leading offices have for some time been making one word of it. Let all fall into line.—The Imprint.
